PROJECTS

Zomato Restaurant Analysis | SQL, Power BI, Power Query, DAX | GitHub Project

- Analyzed Bangalore restaurant ratings, votes, cost for two, online ordering, table booking, restaurant types, and locality patterns.
- Wrote SQL queries to answer 22 business questions and cleaned non-standard rating text in Power Query for numeric analysis.
- Built a 3-page Power BI dashboard with restaurant KPIs, comparison charts, Top 10 analysis, and a locality slicer.
- Created 4 DAX measures for restaurant count, average rating, total votes, and average cost for two; summarized findings into recommendations.

Netflix Content Catalog Analysis | Power BI, Power Query, DAX | GitHub Project

- Prepared the Netflix titles dataset, checked data types, and developed DAX measures for content-catalog exploration.
- Built report visuals and interactive filters to examine catalog characteristics and present findings clearly.
